-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 05/08/2006 has been entered.

2. Claims 6-17 remain pending.

Response to Arguments

3. Applicant's arguments filed 05/08/2006 have been fully considered but they are not persuasive.

A. The examiner's responses to all of applicant's arguments, set-forth in prior Office actions, are incorporated herein again.

B. Applicant has amended the claims to recite that the non-tacky coating is "abrasion resistant and stain resistant" and argues that this new limitation distinguishes the claims over the prior art of record. The examiner disagrees. Abrasion and stain resistance are inherent physical properties/characteristics of the coating film. Any coating/film, applied according to the active process steps recited in the body of each independent claim, therefore inherently possesses these physical properties/characteristics. Because Karim teaches applying the same materials in the same manner as claimed by applicant, the resulting film is, necessarily, abrasion and stain resistant, absent evidence to the contrary.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. **Claims 6-9, 11-14, 16, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karim et al. (US 6,057,382 A).**

A. These claims are rejected for the same reasons set-forth under this heading in the prior Office action.

B. This reference continues to render the claims obvious for the reasons detailed above.

Allowable Subject Matter

7. Claims 10 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1762

8. The following is a statement of reasons for the indication of allowable subject matter: These claims recite allowable subject matter as set-forth under this heading in the prior Office action.

Conclusion

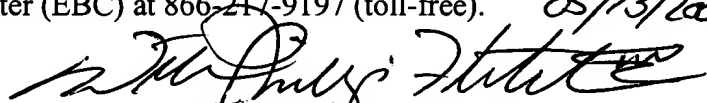

9. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
